ALL Federal Trading Partners Should Be...

- **Submitting Quarterly Implementation Plan Updates**
 - TFM Chapter 4700 – Appendix 8 requires the submission of a G-Invoicing Implementation Plan and Quarterly Updates. Enhancements to the Implementation Plan Attachment A template have recently been made and can be found on the G-Invoicing Implementation Website.
 - Q4 submissions due to Treasury by **September 30, 2020**
- **Engaging with your Trading Partners**
 - Communication with your IGT Buy/Sell Partners is critical for success. Several engagement platforms are supported by the G-Invoicing Program team and are actively being leveraged by G-Invoicing Stakeholders as part of their implementation efforts.
- **Leveraging the Treasury G-Invoicing Program Team**
 - Our resources are here to support you from the start of your Business Process Change Management through to your Production Implementation and Transaction Brokering.

Let's Investigate These Activities Further...

Connecting With Your Trading Partners

- Staying up to date on your Partners' progress is key to your own success in transitioning your IGT Buy/Sell activity to G-Invoicing
- Fiscal Service provides several utilities to facilitate effective communication with your Partners to gain an understanding of their implementation approach and timeline

GT&C Data Access Controls (as of R4.0)

- Each GT&C is assigned to two org Groups:
 - one Requesting Group
 - one Servicing Group
- Presentation focuses on one partner
 - The other partner is treated the same

Note: Release 4.0 allows multiple requesting and servicing ALCs per GT&C within the Agency Accounts

- Descendants of assigned Group see the GT&C and create Orders off the GT&C

Limiting GT&C Access Controls

- Document Inheritance Indicator (DII)
 - Two indicators, one on each side of the GT&C
 - GT&C may be limited to only the assigned group
 - Default setting is 'Yes' (descendants have access)
 - If 'No', descendants cannot see or use the GT&C
 - DII does not impact ascendant groups

- Several agencies asked for this feature

- Targeting release 4.1

- Need to decide if controlled through Modification or Admin Change

Extending GT&C Access Controls

- Allow other Group(s) in the organization to use a GT&C
- GT&C is still owned and maintained by a *Primary Group*
- Primary Group may share the agreement with one or more *Subordinate Groups* (aka, Subs)
 - Assignment of Subs is optional
 - Subs must reside in the same Agency Account as the Primary Group
 - GT&C Manager requires no access to Subordinate Groups
 - Subs must contain one or more of the GT&C's ALCs
 - Descendants of Subs do not have access to the GT&C through this primary/subordinate relationship
 - Need to decide if controlled through Mod or Admin Change

Sharing a GT&C with Subordinate Group

Primary and Subordinate groups both contain ALC 1

Multiple Subordinate Groups

GT&C Manager in Divisional Office C does not require access to Subordinates

Combining the Two Access Controls #1

Document Inheritance Indicator used to block descendants of Primary Group

Combining the Two Access Controls #2

Subordinate Group assignment may override the Document Inheritance Indicator

Impact to System Interfaces

- G-Invoicing APIs
 - Pull GT&C (by GT&C Number) will include Subordinate Groups and Document Inheritance Indicator
 - Optional elements will be added to XML schema
 - Pull Org (by GT&C Number) will return all groups eligible to create an Order under that GT&C
 - Eligible groups will include extensions and limitations covered on prior slides
- ERP vendors and interfacing agencies
 - Are encouraged to leverage G-Invoicing's Pull Org API
 - Agency systems not be concerned with DII and Subs unless they:
 - plan to reconstruct G-Invoicing's organizations
 - plan to duplicate G-Invoicing's rules used to determine which groups are eligible to create an Order under a GT&C

Survey Questions

1. Please provide your name, your contact info and the agency you represent
2. Will your agency be utilizing the Document Inheritance Indicator (DII) and/or Primary/Subordinate Groups (Subs) on your GT&Cs?
3. If #2 is Yes, should updates to DII be allowed by Administrative Change (i.e., no approvals) or only through Modification of the GT&C (with approvals by both partners)?
4. If #2 is Yes, should updates to Subordinate Groups be allowed by Administrative Change or only through Modification?
